

## Just-in-Time IACUC Review Grant Application Signature Page

Many federal agencies will accept the Just-in-Time IACUC

*Many agencies provide a short window between the notice of funding and the start date. This window may be too short for normal IACUC procedures to process the application. If you believe this is true for the agency to which you applied, you may submit a new protocol to the IACUC Office prior to the notice of funding in order to avoid delays in the start date. There will be no exceptions to the regular scheduled IACUC deadlines because funding is pending for a proposal, and is not possible to guarantee IACUC approval in advance of the review process.*

*Investigators who learn that their proposal may be funded should submit a new protocol to the IACUC Office for review. No portion of the proposed research can be conducted until the proposal has been reviewed and approved by the IACUC and funds will not be released until final approval has been received.*

Does the project include a consortium/ foreign

Yes  No

performance site?  Yes  No

If Yes, follow [USA Guidance for Foreign and Domestic Subcontracts](#).

Will you be receiving animals from a source outside of the United States?  Yes  No

Please select the species which is the subject of the proposed research:

mice  rat  rabbit  hamster  gerbil  swine (pig)  cat  dog
