---

There is only one training.

There is one mandatory administrator training for our primary schedulers. However, we will offer training opportunities for as long as needed.

---

This software is for academic scheduling.

Early in the process President Waldrop noted that this effort would not address academic scheduling. Any future academic scheduling changes would be led by Academic Affairs.

This implementation will fix the scheduling issues on campus.

This implementation is one of many strategies we believe will help remedy on campus scheduling challenges. It is critical that the entire University community participates in this effort.
